RDC Releases “Process Safety and Fatigue Management” Online Training Program as Part of ePILOT Mandated EH&S Library

27-August-2010: BIRMINGHAM, MI. [Resource Development Company](#) (RDC) announces the addition of a new web-based learning program on Process Safety and Fatigue Management as part of the [ePILOT](#) Mandated Environmental Health and Safety library. *Process Safety and Fatigue Management* is designed to help users meet the basic training requirements of ANSI/API's Recommended Practice 755. This module will provide a useful addition to any process facility's Fatigue Management Program.

The course is accessible via the internet and covers information regarding fatigue risks, shift work sleep disorder, and how to obtain quality sleep.

“We continuously monitor industry standards and talk to our clients to ensure our learning programs reflect best practices,” said Brian Cormier, Director of Oil & Gas Solutions at RDC. “With each new release, ePILOT remains the most extensive library of web-based learning modules for addressing mandated, core competency and operations knowledge requirements.”

Process Safety and Fatigue Management joins the 75 learning programs in the ePILOT Mandated Environmental Health and Safety (EH&S) Library series addressing Federal Mandates from OSHA, MMS, DOT, EPA, NRC & USCG. Through the PILOT Libraries over 400 hours of web-based training can be accessed anytime and anywhere via the internet. The training modules incorporate industry specific terminology with categories that include: Fundamentals, Equipment, Instrumentation, Maintenance, Process Operations, Production Operations and Process Safety. All ePILOT courses have been certified to stringent e-learning standards by the American Society of Training and Development (ASTD) and the American Petroleum Institute (API). ePILOT is the first web-based operator training curriculum certified by the International Association for Continuing Education and Training, allowing learners to earn Continuing Education Units (CEU).

Resource Development Company (RDC) is a global leader in developing innovative learning solutions. For the past 50 years, they have specialized in providing learning solutions to the oil and gas, refining, chemical, petrochemical and pharmaceutical industries. Extensive industry knowledge and advanced web technology allow RDC to deliver unparalleled learning management, performance support and compliance information management solutions. www.rdc.us.com
